" Boken henvender seg til alle berørte, ikke bare ingeniører. Innkjøpere, planleggere, sekretærer, dokumentkontrollere, leverandører etc – alle sitter igjen med sine minner. Og minnene begrenser seg ikke til arbeidet man gjorde, men alt annet rundt en. Gode kolleger, felles opplevelser, det å jobbe i team, akkurat dette viser at offshore jobbing ikke er kjedelig, men ofte moro. Disse følelsene blir vekket til livet igjen når boken leses – og bekrefter forfatterens meninger "

Part Translation: " The book addresses all those working in offshore industry; Engineers, Procurement personnel, Planners, Secretaries, Document personnel, i.e. all those who sit with their own memories. And these are not limited to the work everyone does but everything around it; good colleagues, common experiences, working in a team, etc. Such things show that offshore engineering is not boring, but often humoristic. By reading the book such memories are recalled - and confirm Author's version of events"

2) A **male** colleague wrote: (Norwegian Text) - **June 2012**

"Har lest boka og kjenner igjen mange av situasjonene. Bra."

Part Translation: "I have read the book and recall many of the situation therein. Very well"

3) Extract from **an Engineering Company's** Web site (employs 8000 engineers):- **May 2012**

" After 28 years working in the offshore business, Reza Sarmast has written a humorous subject book about his experiences and observations in the offshore working environment. We recommend all to participate in its launch at Litteraturhuset in Oslo"

4) **CEO** of an International Company wrote (Norwegian Text):- **August 2012**

" Dette kan ikke bli noen bokanmeldelse, og om det var så, har jeg sjelden sett at karakteristikken er summert opp I at boken is "Great Entertainment.". Men det er den"

Part Translation: " This cannot be a book review,, and if it were, I have rarely seen the characteristics of a book summed up better than in this one:"Great entertainment". And it definitely is!
